

The **PROTAMO 22** is a touch screen with a robust glass surface designed for use in industrial environments. For a user-friendly operation there are three USB slots on the side of the screen. With a reduced virtual keyboard, no external hardware is needed to switch between measuring tasks or any other programs.

Touch

Capacitive 22-inch touch screen with robust glass surface

Flexible

Variable positioning for an optimal design of the measuring station

Is this the right product for you?

For over 40 years, we have focused on complex measurement applications and can develop the right solution for you thanks to our large network of experts.
